Through the Eyes of a Child

With this year's Red Cross Ball in Geneva we aim to help the most vulnerable among us, the children. Together we can truly impact the lives of many of them and restore hope for a better future.

We support eye care projects

The most common cause of debility of sight and blindness is cataract, a curable disease. In May 2017, together with the Nepalese Red Cross, we've officially opened an eye clinic in the district of Surkhet.

This clinic is improving the quality of life for two million people. Besides our efforts in Nepal, we launched an ambitious program in Kyrgyzstan and managed to maintain and improve our support to communities in Mali, Togo and Ghana.

À Genève, nous soutenons les enfants

Tous les enfants se trouvant à l'hôpital, qu'ils soient eux-mêmes hospitalisés ou hébergés provisoirement pour l'hospitalisation de leur mère, bénéficient d'un suivi et d'un soutien attentifs et constants de la part de la Croix-Rouge genevoise. De plus, tous les enfants défavorisés peuvent bénéficier, par l'encadrement de la Croix-Rouge genevoise, de journées loisirs leur permettant de bénéficier, eux aussi, d'activités récréatives. Enfin, la Croix-Rouge genevoise offre aux enfants souffrant de dyslexie un support spécifique pour améliorer leur capacité d'apprentissage et leur confiance en leurs possibilités.

PREVENTING. SUPPORTING. TUTORING.
